

Taxes:

Taxes are like teamwork money! Imagine you and your friends are building a super cool clubhouse. To make it awesome, everyone brings a little bit of money. That's like taxes - it's money we all contribute to make our community better!

Now, let's talk about different types of taxes. There's a sales tax when you buy stuff, like toys or ice cream. Some people pay income tax; it's a bit like sharing a tiny piece of the money they earn. Property tax is like a fee for having a house or land in your community.

Why do we pay taxes? We pay taxes because it helps the government do important things, like building schools, fixing roads, having clean water and sewage and keeping us safe with police and firefighters. It's like everyone chipping in to make sure our town is happy and healthy!

Remember, taxes is where we all pitch in, so our community can be the best it can be. It might sound a little tricky, but it's all about working together and making our world a good place for everyone!

1. **Explain what taxes are.**
2. **Why are taxes necessary?**
3. **What would happen if people didn't pay any taxes?**
4. **Explain how taxes help in your community.**
