

Money 101

Needs vs. Wants: There is a difference between needs (essential items like food, clothing, and shelter) and wants (non-essential items like toys or treats) when making spending decisions.

- ❶ What are 3 needs that spending money is necessary for?
- ❷ Can you think of 3 wants to spend money on and why is this different than 3 needs?
- ❸ Why is it important to think purchases over before spending your money?
