

Name: _____

Be a Math Wizard!

Use less than <

Greater than >

Or equal =

to compare the 2 fractions. (Example: $1/2 < 3/4$) or $1/2 = 2/4$)

Compare the fractions.

1. $\frac{2}{3}$ $\frac{1}{4}$

2. $\frac{3}{6}$ $\frac{1}{4}$

3. $\frac{2}{3}$ $\frac{1}{5}$

4. $\frac{3}{8}$ $\frac{3}{4}$

5. $\frac{7}{8}$ $\frac{3}{6}$

6. $\frac{1}{3}$ $\frac{3}{5}$

7. $\frac{1}{5}$ $\frac{1}{3}$

8. $\frac{3}{5}$ $\frac{3}{6}$

9. $\frac{5}{8}$ $\frac{1}{4}$

10. $\frac{1}{4}$ $\frac{1}{8}$

11. $\frac{2}{4}$ $\frac{1}{3}$

12. $\frac{1}{4}$ $\frac{1}{3}$

13. $\frac{5}{6}$ $\frac{2}{4}$

14. $\frac{1}{4}$ $\frac{1}{4}$

15. $\frac{1}{5}$ $\frac{2}{5}$

16. $\frac{3}{8}$ $\frac{2}{5}$

17. $\frac{1}{8}$ $\frac{4}{6}$

18. $\frac{5}{8}$ $\frac{2}{4}$

19. $\frac{1}{6}$ $\frac{5}{8}$

20. $\frac{2}{8}$ $\frac{6}{8}$

Try using fraction circles or bars to determine the size of the fractions.
