

Name:

# DeSigner Habitat Project

For your 'Designer Habitat' you may make a 3-D model, a poster, a flip book, or a booklet. You will need to include the following to your habitat:

1. What is the name of your habitat?
2. What is the landscape like?
3. What non-living elements are there?
4. What animals will be in your habitat?
5. What will the animals eat?
6. What insects will be in your habitat?
7. What plants will be in your habitat?
8. What will your plants have to survive?
9. What is the climate like in your habitat?
10. Are there humans in your habitat, and what do they need to survive?
