- 3)There are lots of different kinds of bats. Bats live all over the world but they don't live in cold regions. One group of bats eats fruits and the other group of bats eats insects, birds, and nectar.
- 4)The statement blind as a bat is not true because bats can see quite well.

5) the honey bee can fly at a speed of 15 miles per hour a hive of honey bees has about 40 000 bees in it? the honey bee has five eyes!

6) to make one pound of honey the worker bees fly 55 000 miles and tap two million flowers

7) a worker bee will make 1/12th of a teaspoon of honey over its lifetime? Bees have been making honey for about 150 million years

8) the honey bee provides us with honey and beeswax

9) a lot of people are afraid of bees because of their painful sting when a honey bee stings a person it then dies

Answers

5) The honey bee can fly at a speed of 15 miles per hour. A hive of honey bees has about 40 000 bees in it. The honey bee has five eyes.

6) To make one pound of honey, the worker bee flies 55 000 miles and taps two million flowers.

7) A worker bee will make 1/12th of a teaspoon of honey over its lifetime. Bees have honey for about 150 million years.

8) The honey bee provides us with honey and beeswax.

9) A lot of people are afraid of bees because of their painful sting. When a honey bee stings a person, it then dies.

10) did you no that a person can live with out food for more than a hole month a person can only live four about won week with out water we need watermore then we need food

11) did you no that 97 % of earths water is in the oceans. Just 3 % of the earths water can bee used four drinking water. 75 % of the worlds fresh water is frozen in the North and South polar ice caps?

12) water can bee found on the earth's surface both in the ground and in the air water can be found in three different formes: liquid, gas, and solide

13) their is the same amount of water on earth as they're was when the earth was formed the water that came from you're own faucet could contain molecules that the dinasaurs drank?

Answers

10) Did you know that a person can live without food for more than a whole month? A person can only live for about one week without water. We need water more than we need food.

11) Did you know that 97 % of earth's water is in the oceans? Just 3 % of the earth's water can be used for drinking water. 75 % of the world's fresh water is frozen in the north and south polar ice caps.

12) Water can be found on the earth's surface both in the ground and in the air. Water can be found in three different forms: liquid, gas, and solid.

13) There is the same amount of water on earth as there was when the earth was formed. The water that came from your own faucet could contain molecules that the dinosaurs drank.

14) did you no that sugar comes frum either suger beets or from sugar cane. we usually de-
fine the type of sugar buy its color. sugar was discovered in the pacific islands over 2000
years ago?

15) granulated sugar is whut we often see writen on are bags of sugar. granulated sugar is
realy refined sugar? confectioners or powdered sugar is the soft sugar you often sea on do-
nuts

16) befour sugar is refined. it is actually a liquid juice? the liquid juice from thesugar canes
or the sugar beats is then boiled an boiled until it become solid crystals

17) did you no that brown sugar is just white sugar with som of the liquid still left in it. the
liquid is the molasses witch is what gives it the brown color molasses is the liquid from the
sugar canes now you no that brown sugar must comefrom sugar cane and not sugar beets

Answers

14) Did you know that sugar comes from either sugar beets or from sugar cane?

We usually define the type of sugar by its color. Sugar was discovered in the
pacific islands over 2000 years ago.

15) Granulated sugar is what we often see written on our bags of sugar.

Granulated sugar is really refined sugar. Confectioner's or powdered sugar is
the soft sugar you often see on donuts.

16) Before sugar is refined, it is actually a liquid juice. The liquid juice from the sugar
canes or the sugar beets is then boiled an boiled until it become solid
crystals.

17) Did you know that brown sugar is just white sugar with some of the liquid still
left in it? The liquid is the molasses which is what gives it the brown color.

Molasses is the liquid from the sugar canes. Now you know that brown sugar
must come from sugar cane and not sugar beets.

18) do you know what won of the oldest foods know to man is. if you guesed wheat you are write. their are over 30 000 diferent kinds of wheat that all come from seed? The seeds all came from the european settlers.

19) wheat is usualy used to make flower? the flower is then used to make bread, cookies cakes pasta and noodles. there are many diferent types of flower made from wheat.

20) Some people will tell you that thay hav an allergy to wheat. this means that they are allergic too the protein in wheat witch is called gluten? These people will often eat rice instead. rice does not have any gluten.

21) products made with hole wheat flower are better four you than products made with white flower when the bran and the germ are removed from thewheat it is not as nutritious to eat too get white bread the bran and the germ are removed from the wheat.

Answers

18) Do you know what one of the oldest foods know to man is? If you guesed wheat, you are right. There are over 30 000 different kinds of wheat that all come from seeds. The seeds all came from the European settlers.

19) Wheat is usually used to make flour. The flour is then used to make bread, cookies, cakes, pasta and noodles. There are many different types of flour made from wheat.

20) Some people will tell you that they have an allergy to wheat. This means that they are allergic to the protein in wheat which is called gluten. These people will often eat rice instead. Rice does not have any gluten.

21) Products made with whole wheat flour are better for you than products made with white flour. When the bran and the germ are removed from the wheat, it is not as nutritious to eat. To get white bread, the bran and the germ are removed from the wheat.

22) the first cell phone was developed in the 1974 by a man named martin cooper. it was invented even befour a cordless phone for home use was developed. hard to imagine it weighed a kilogram and was much largertan cell phones today.

23) the first cell phone went on sale in the united states for \$4000. hard to imagine your tiny liddle phone has more power than the computer that was used when apollo 11 landed on the noon in july of 1969.

24) it's been said thatmore people in the world have cell phones than toilets. it has been noted that their is 19 times more bacteria on your phone than on a toilet handle. yikes?

25) cell phones r almost a necessity these days. unfortunately, 28% of all car crashes are do to people being distracted on they're cell phones while driving. like many other things cell phones are a positive tool if thay are used correctly

Answers
