Templates For  
ALL 6 BIOMES

1. Copy each page for as many booklets as you need.
2. CUT across each page only where the scissors are shown on the lines.
3. Assemble by taking the title page and folding in half on the fold lines.
4. Put each page in order in the fold of the folded title page that you cut.

*\* Each page will fit exactly and you can staple at the top once assembled.*

This is the Title TOP Page—cut on scissor line only as it will be folded on the dotted line and each of the pages will go inside of the fold. (See front page example.)

The next 5 pages are the first page—students illustrate the Biome.

CUT ONLY across the bottom line. Every page will line up as each one will be slightly longer to show the title.

***This is the first page.*** (After the BIOME folded topper)

***The order is:***

*BIOME Topper*

*Name of Biome*

*Location*

*Climate*

*Plants*

*Animals*

*Threats and Info*

*Extra blank if needed.*
