

# Life Cycle of a Plant Booklet

by \_\_\_\_\_

<http://worksheetplace.com>

The seeds  
need soil.

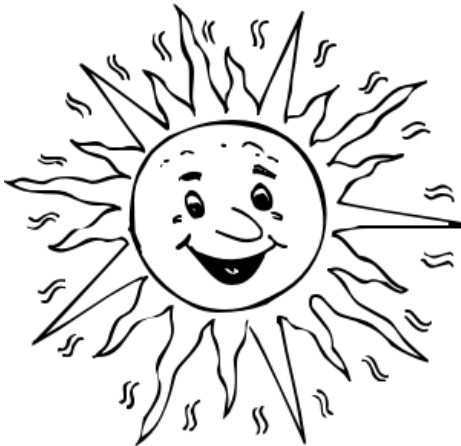

<http://worksheetplace.com>

The seeds  
need rain.

<http://worksheetplace.com>

The seeds  
need sun-  
light.

<http://worksheetplace.com>

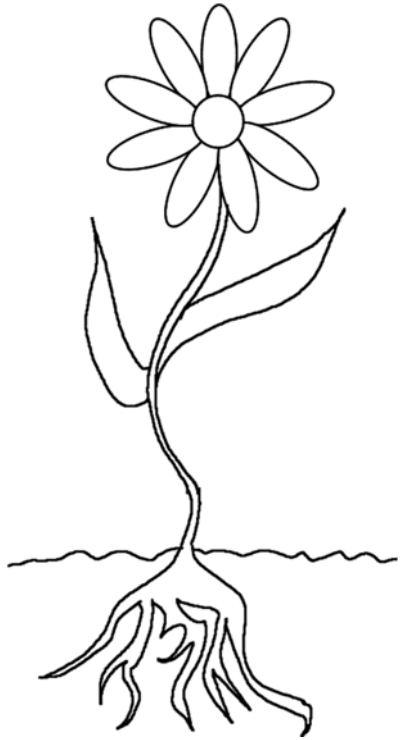

The seeds  
begin to  
sprout.

<http://worksheetplace.com>

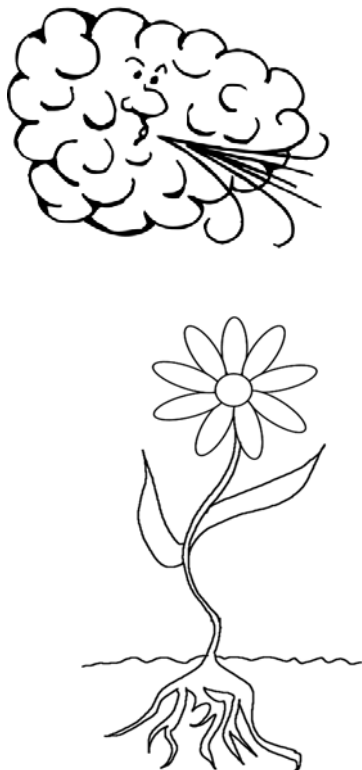

The seeds  
keep  
growing.

<http://worksheetplace.com>

The seeds  
become  
a plant.

<http://worksheetplace.com>

The wind  
blows and  
the seeds  
scatter.

<http://worksheetplace.com>

The seeds  
fall to the  
ground.

<http://worksheetplace.com>

The cycle  
starts over.
