

How to Write a Paragraph

Topic Sentence: Start your paragraph with a clear topic sentence that tells your readers what the paragraph is about. It's like the main idea of your paragraph.

Details and Examples: After your topic sentence, provide details, facts, or examples that explain your main idea. These help to support your point.

Stay on Topic: Make sure everything you write in the paragraph is related to your topic. Don't include information that doesn't belong.

Use Transition Words: Use words like "first," "next," "then," and "finally" to show the order of your ideas and make your paragraph flow smoothly.

Closing Sentence: End your paragraph with a closing sentence that summarizes what you've said and may restate your main idea. This helps to wrap up your paragraph nicely.
