Pythagorean Theorem

For right angled triangles: the square of the hypotenuse (longest side) will be equal to the sum of the squares of the other two sides.

Find the length of the unknown side.

1.

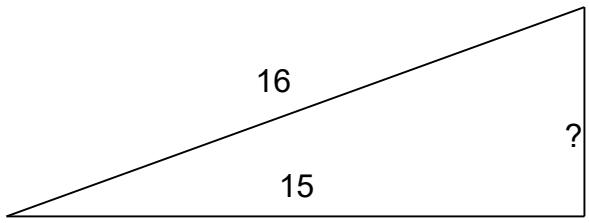
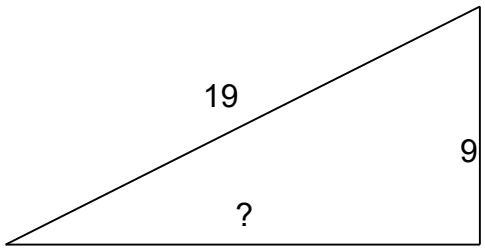
S =26.401

2.



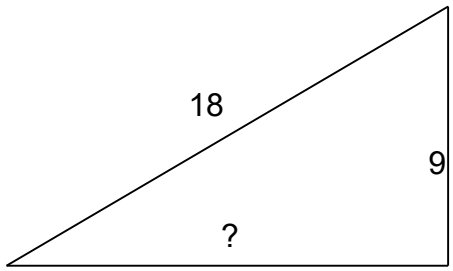
S =5.568

3.



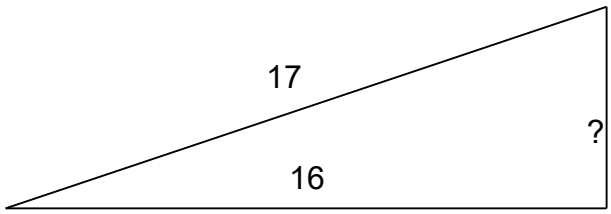
S =16.733

4.



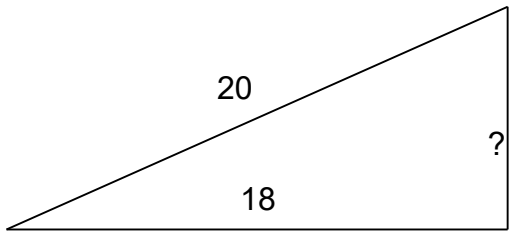
S =15.588

5.



S =5.745

6.



S =8.718
