

Name: _____

Number Problems

Solve.

1. The quotient of a number and two is 18. Find the number.
2. The quotient of a number and three is 11. Find the number.
3. The quotient of a number and seven is 12. Find the number.
4. The quotient of a number and three is 3. Find the number.
5. The quotient of a number and ten is 7. Find the number.
6. The quotient of a number and four is 8. Find the number.
7. The quotient of a number and two is 5. Find the number.
8. The quotient of a number and nine is 10. Find the number.
9. The quotient of a number and ten is 13. Find the number.
10. The quotient of a number and four is 5. Find the number.

Name: _____

Number Problems

Solve.

1. **36** The quotient of a number and two is 18. Find the number.
2. **33** The quotient of a number and three is 11. Find the number.
3. **84** The quotient of a number and seven is 12. Find the number.
4. **9** The quotient of a number and three is 3. Find the number.
5. **70** The quotient of a number and ten is 7. Find the number.
6. **32** The quotient of a number and four is 8. Find the number.
7. **10** The quotient of a number and two is 5. Find the number.
8. **90** The quotient of a number and nine is 10. Find the number.
9. **130** The quotient of a number and ten is 13. Find the number.
10. **20** The quotient of a number and four is 5. Find the number.
