

# All About Cats

Cats are furry animals that have four legs and a tail. They have sharp claws and can climb trees and things. They are kept as pets and can be very playful. They like to chase toys and nap in cozy spots. Cats can purr which can be very soothing. They are also great hunters and can catch mice and other small animals. Some cats have long hair, others have short hair. They come in many different colors and patterns that have spots or stripes. Cats are very special animals that many people love to have for pets in their homes.
