

# All About Cats

Cats are four-legged animals that usually have soft fur and a long tail. They are often kept as pets by people and can be very playful.

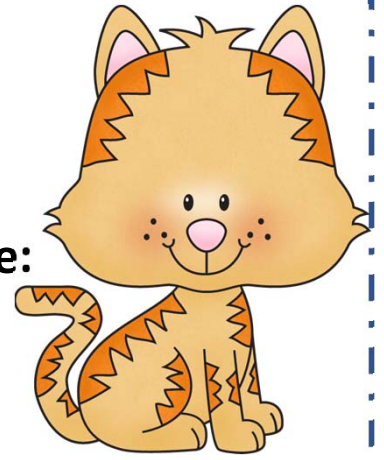

They love to chase toys, string and balls.

They are also known for their ability to hunt and catch mice and other small animals.

Cats can make sounds like meowing, purring and growling. They like to groom themselves, to keep their fur clean. Cats come in different colors and patterns, such as black, white, grey, brown and even orange. They can be short-haired or long-haired. They can be very friendly and cuddly, but also independent and like to have their own space. Cats make great pets for children and adults alike.

1. Read the passage about cats.
2. Underline each word that you could not read.
3. Circle each word that took you more than 1 try.
4. Answer the questions.
